

## Sustainable Infrastructure Study Visit

**18 November 2025, Stockholm**

Organised in connection with the Swedish–Polish Business Summit 2025, in partnership with [Stockholm Business Region](#) and the [Polish Embassy in Stockholm](#).

### Agenda

#### **08:30 – 10:00 | Site visit: [Slussen Project](#)**

Guided visit to one of Stockholm's largest and most complex urban infrastructure projects – the redevelopment of Slussen area. The project illustrates Sweden's approach to integrated urban mobility, water management, and sustainable construction.

#### **10:15 – 12:00 | Site visit: [Stockholm Meatpacking District \(Slakthusområdet\)](#)**

Presentation and walking tour of the Meatpacking District urban regeneration project – an ambitious redevelopment transforming the former industrial area into a vibrant, diverse district with housing, offices, culture, and gastronomy. The visit will highlight sustainable design principles and the integration with the new metro line.

#### **12:00 – 12:30 | Transfer by bus to [United Spaces Waterfront Building](#)**

#### **12:30 – 13:30 | Networking Lunch**

Informal lunch and networking with Swedish and Polish representatives from the construction, architecture, and transport sectors.

#### **13:30 – 16:00 | Seminar & Panel Discussion: Sustainable Infrastructure in Sweden and Poland**

Moderated discussion and expert presentations (incl. a coffee break) featuring:

- **Konrad Szczęsny - Stockholm Business Region** – Welcome and overview of sustainable construction investments
- **Oskar Norelius - White Arkitekter** – [Stockholm Wood City: the world's largest wooden urban development](#)
- **Bengt Rehn - Svenska Bostäder** – [Stockholmshusen Project](#)
- **NYAB** – [The Uppsala Tramway Project: sustainable transport in practice](#)
- **Hellström Law** - *Legal aspects and insights into Swedish business culture in the construction sector*
- **Prof. Michał Wolański (SGH Warsaw School of Economics)**

#### **Panel Discussion:**

*“Sustainable infrastructure in Poland and Sweden – innovation, regulation, and collaboration opportunities.”*

With participation of Swedish and Polish experts.

### Summary

Explore Stockholm's flagship urban redevelopment projects – the Slussen area and the Meatpacking District – showcasing Sweden's approach to sustainable mobility, water management, and urban regeneration. The visit concludes with a networking lunch and seminar at United Spaces Waterfront featuring presentations by Stockholm Business Region, White Arkitekter, NYAB, Hellström Advokatbyrå, and Prof. Michał Wolański (SGH Warsaw School of Economics), followed by a panel discussion on sustainable infrastructure in Poland and Sweden.
